

Unveiling the Future

Ace Group's Mandate

Disclaimers

Projections and Forward-Looking Statements:

This business plan includes forward-looking statements, projections, and estimates based on current assumptions and expectations. Actual results may differ materially from those expressed or implied due to various risks and uncertainties. Ace Software Exports Ltd and its subsidiary/associate/group companies do not guarantee these projections' accuracy or completeness and undertake no obligation to update them.

No Inducement to Invest:

This document does not constitute an offer or invitation to sell, or a solicitation of an offer to buy, any securities or interests in Ace Software Exports Ltd and its subsidiary/associate/group companies. Any decision to invest in Ace Software Exports Ltd and its subsidiary/associate/group companies should be based on an independent analysis and assessment by the investor.

Non-Reliance:

The recipient should not rely on the information contained in this business plan as the sole basis for any decision. Professional advice and due diligence should be sought before making any investment decisions.

No Guarantee of Returns:

Investing in Ace Software Exports Ltd and its subsidiary/associate/group companies involves risks, and there is no guarantee of any specific return on investment. Past performance is not indicative of future results.

Regulatory Compliance:

The recipient agrees to comply with all applicable laws and regulations, including securities laws and understands that any investment decision must be made in accordance with such laws and regulations.

Third-Party Information:

This business plan may contain information obtained from third-party sources. While we believe these sources to be reliable, Ace Software Exports Ltd and its subsidiary/associate/group companies make no representations or warranties regarding the accuracy or completeness of such information.

Limited Liability:

Ace Software Exports Ltd and its subsidiary/associate/group companies and its representatives shall not be liable for any losses or damages arising out of the use of this business plan or reliance on the information contained herein.

Updates and Revisions:

The information in this business plan is as of July 2024 and is subject to change. Ace Software Exports Ltd and its subsidiary/associate/group companies undertake no obligation to update any information or forward-looking statements to reflect changes in circumstances or events.

Software Consulting – Future plans

Software Consulting – CoE Initiatives

CoE – 1: Data, AI, BI, ML

Hired CoE Lead

Hired a team of AI/ML engineers & currently under mentoring

Started one client engagement (small Data project)

Developed multiple PoCs for process maturing

The initial team planned is 12 to 15 engineers.

CoE – 2: Cloud Services

Managing three key clients' infrastructure in AWS Cloud

Managing scalability, security, and cost-efficiency in AWS Cloud

Utilising various AWS and Microsoft Azure services for application development & DevOps

The initial team planned is 10 to 13 engineers.

CoE – 3: Salesforce

Administrative tasks for current key customers

Integrations with website and marketing automation tools

Salesforce integration with our homegrown products

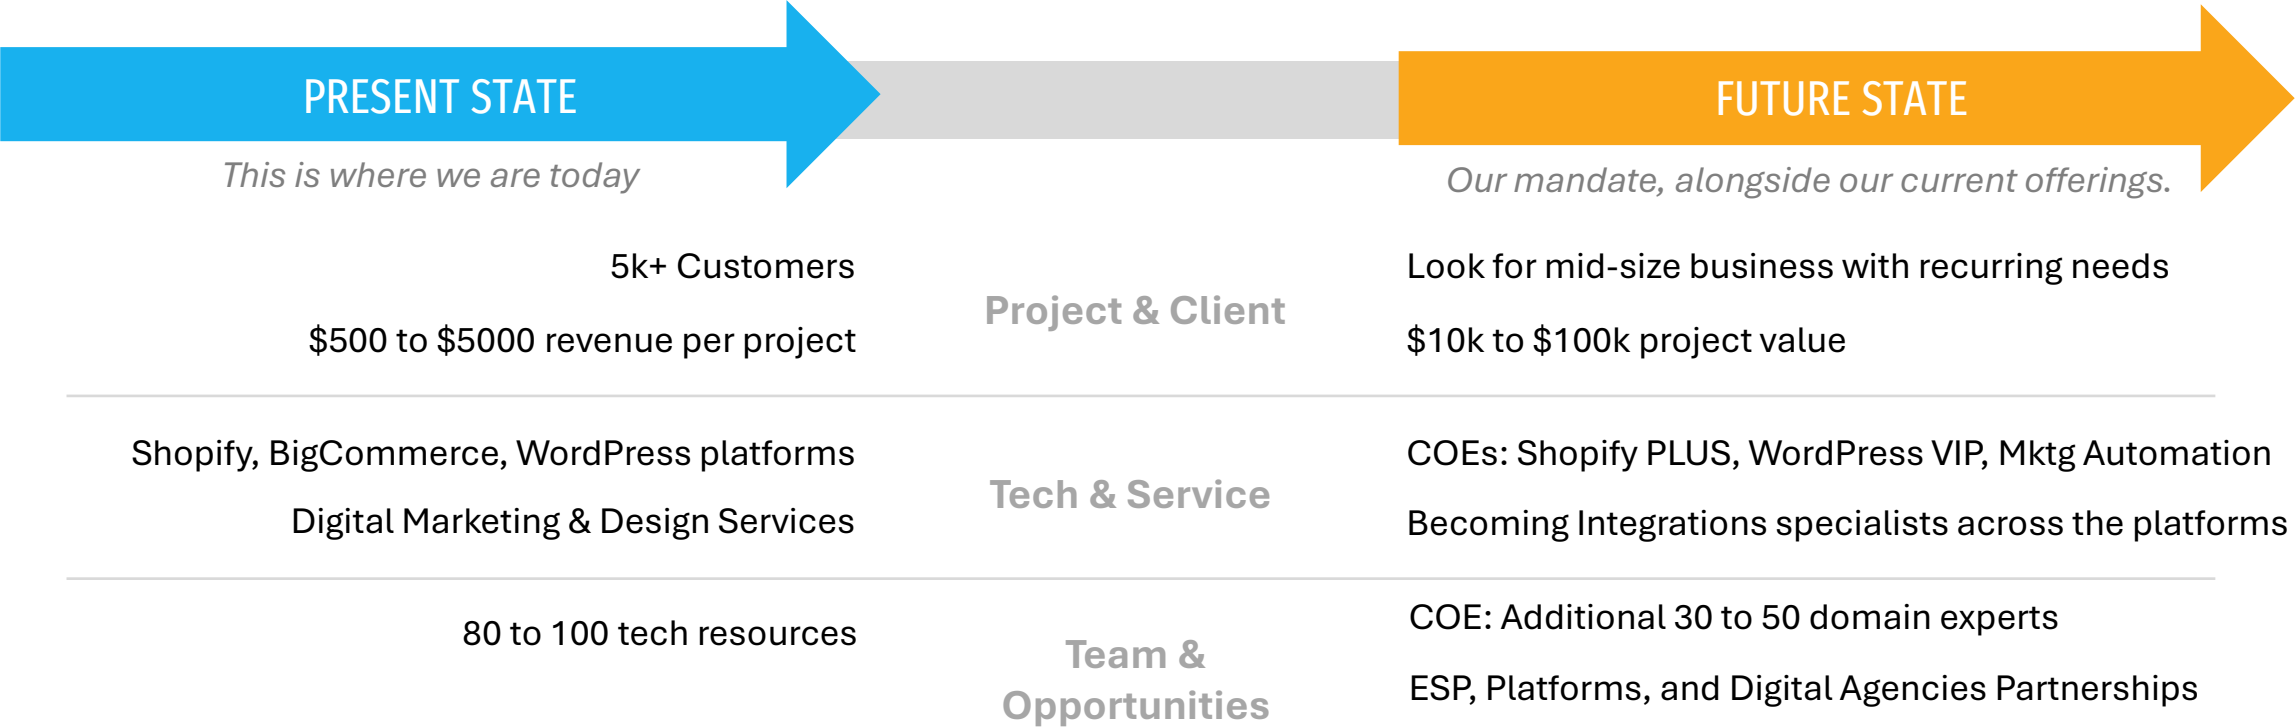

To serve US associations, leveraging over 15 years of client relationships and strategic partnerships.

The initial team planned is 11 to 15 engineers.

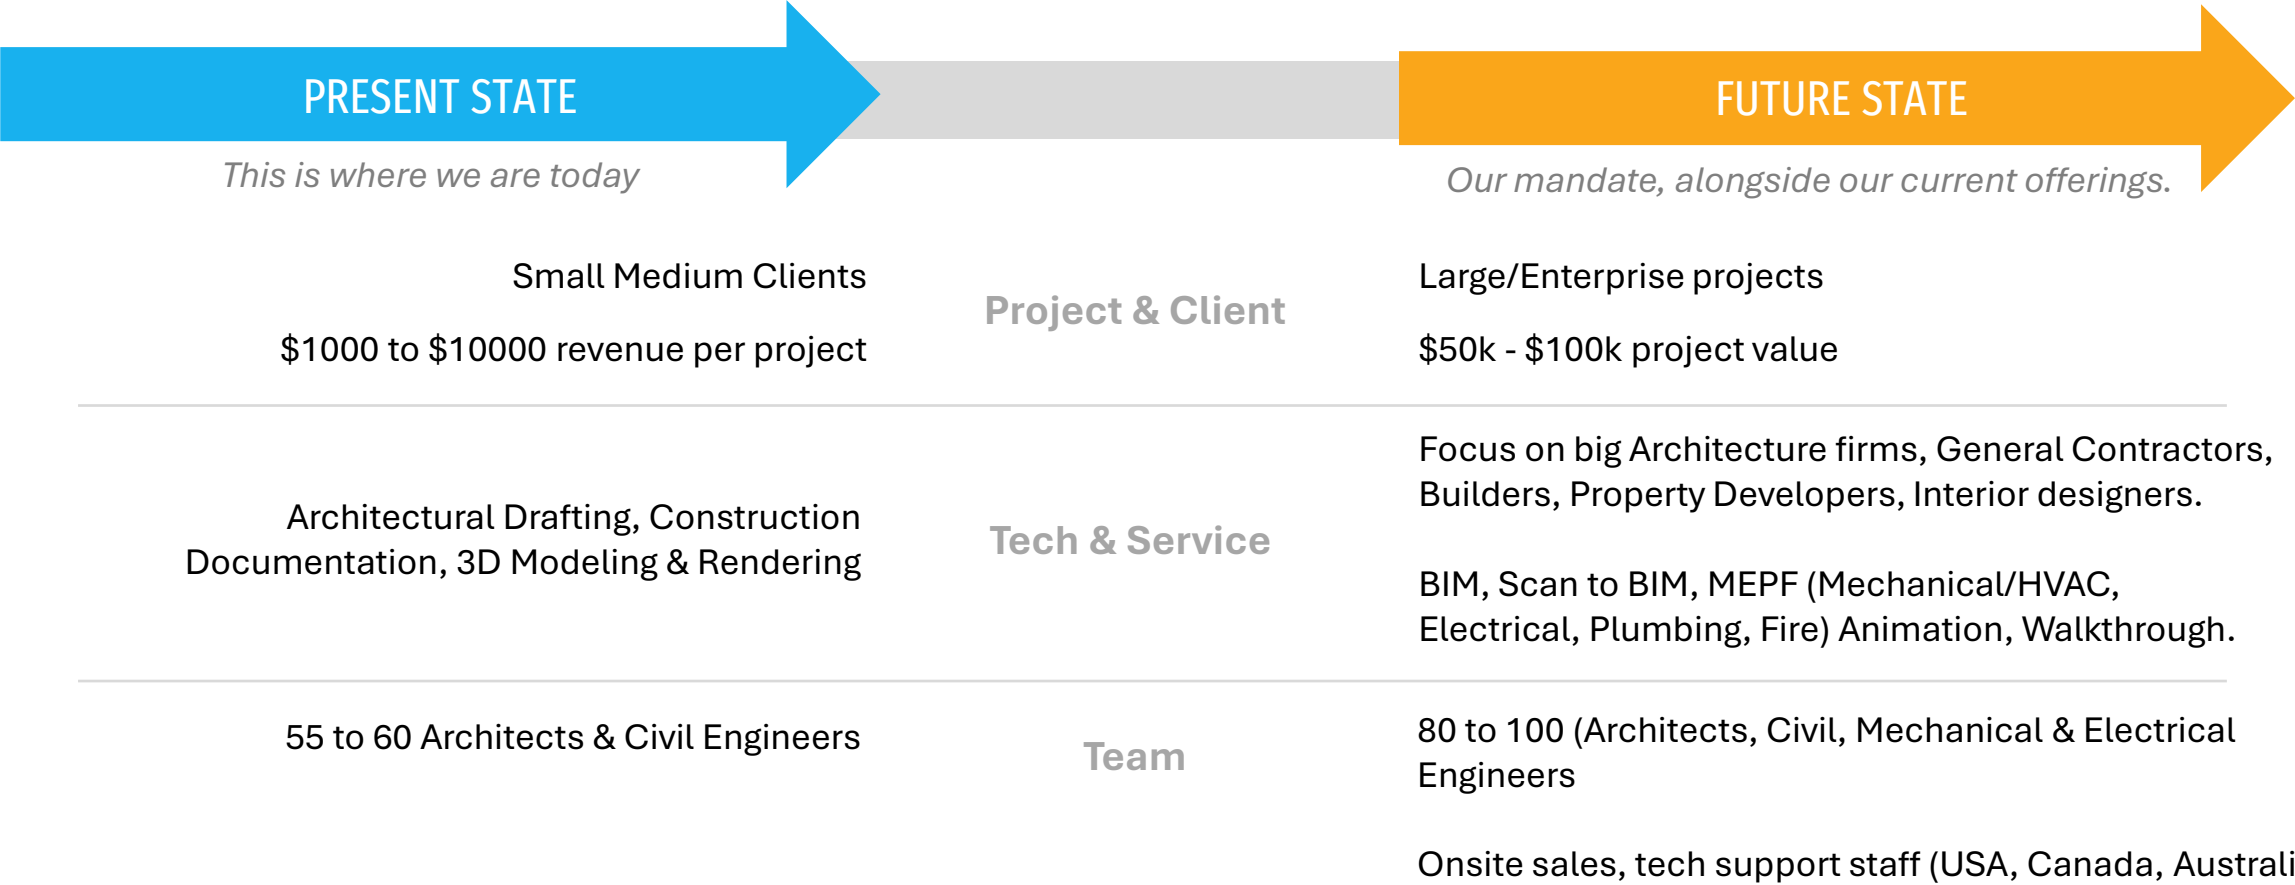

Platforms we plan to work with. Many more will be added in due course

Digital Services for SMEs - Future plans

AEC/Building Solutions – Future plans

Digital Products

At present, Ace Group is a 100% service business
 The mandate is to become 60 (Services) : 40 (Products) business

			
Development start – Oct 2024	Under development	Beta launch – July 2024	Product ready
Beta launch – Apr 2025	Beta launch – Jan 2025	Commercial launch – Oct 2024	Launch in the next 30 Days

Disclaimer:
 All product names are only internal code names, and the final release may have different names or configurations. Features and functionality are shown for a basic explanatory purpose, and the end product may have different features, target segments, or GTM strategies.

Problem Statement

Complex/Dynamic large SKU based companies, scheduling, planning, optimization, what if analysis, with user friendly navigation.

Solution

Building a product with user friendly for the Scheduler, Plant Head, Operation Manager, with following functionality.

Why Ace

We are working closely with one of the Industry leader for domain knowledge, and they have fully operational products tightly linked to their business.

Future Opportunities

- Integration with other ERPs
- Expansion to pan India and Overseas market
- Developing full blown ERP
- Getting private equity or VC funding
- Getting acquired by a potential ERP or other enterprise companies

Target Market - SAP Installations

- Gujarat – 4,000+
- Pan India – 19,000+ (*excl. Gujarat*)
- Europe – 22,000+
- USA – 10,000+

Development Schedule

Industries

- Manufacturing
- Pharmaceutical
- Chemicals/Specialty Chemicals
- Consumer Products
- Food Processing

Other ERP OEMs

- Oracle (*Fusion Cloud & NetSuite*)
- Microsoft (Dynamics 365 & BC)
- Infor
- Epicor
- QAD

Development Team (30+)

- Project/Product Manager(2)
- Technical Architect
- Cloud Specialist
- Data Architect
- BA (2)
- UI/UX (3)
- Full Stack (9)
- Integration Specialist (4)
- Data Specialist (4)
- QA (6)

Onboarding Team (10 - 30)

Support Team (10 - 30)

Key Success Factors

- Domain knowledge from an Industry leader
- Fully functional Product available (*non-modular and built with older generation technology*)
- 4 Beta Customers across different Engineering segments
- Key SME Core Team - Technical Architecture, Data & Cloud Architecture, Full Stack Developer, covering more than 200 Man Years of experience

Problem Statement

Small ecommerce businesses face a daunting challenge: optimizing sales with limited resources and expertise. Without the right tools, they struggle to evaluate performance, pinpoint areas for improvement, and implement effective strategies.

Solution

An AI enabled sales assistant which will provide detailed performance insights, recommend strategies, and assist in implementation through seamless integrations

Integrations:

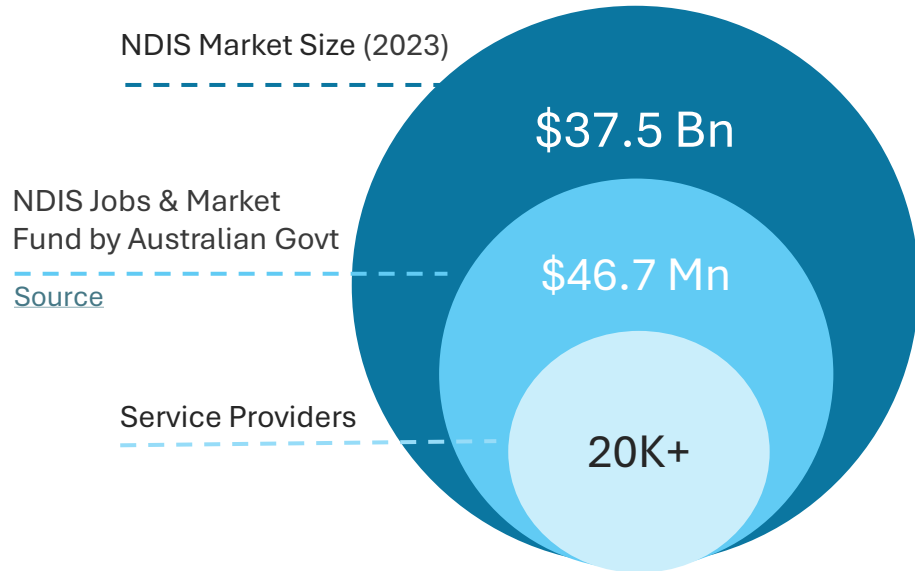

RotaWiz is providing effortless rostering to health service providers and caregivers for the betterment of people with disabilities. The objective is to establish RotaWiz as a leading NDIS software in Australia and become a platform where providers, caregivers and patients communicate seamlessly.

Market Participants (users)

- Registered NDIS Providers (20k+)
- Disability Care Agencies
- NDIS Plan Managers
- Disability Support Workers
- Case Managers
- NDIS Participants
- Families and Carers

NDIS Compliance

- Automatically calculates and charges the correct NDIS rates for different services and durations.
- Tracks and manages worker qualifications and skills to ensure they are matched with appropriate participants.
- Generates reports and invoices that comply with NDIS requirements.

Efficient Scheduling

- Creates rosters based on participant needs, worker availability, and budget limitations.
- Allows workers to input their availability and request leave.
- Identifies potential scheduling conflicts and suggests solutions

Mobile App

- Provides a communication platform for Clients to work together with workers, participants, and coordinators.
- Sends notifications about changes to schedules, assignments, and payments.
- Facilitates feedback and communication between participants and workers.

Connect Independent Carer with Providers

- Integrates Between independent carer account and provider to effectively work together
- Hiring made easier through RotaWiz connect where carers are able to find work in the same rostering platform
